ATTN: Philanthropists

C/O Ms. Yenganigi

North Cobb High School

Dear Philanthropists

My name is Felicity Carter, the founder of 'A Helping Hand'. We're a non-profit organization to help women and young girls around the world to escape early marriage, verbal and sexual abuse, also physical abuse, and the right to education. We're trying to bring attention to the countries that are allowing these activities among women.

Study shows that 38% of all murdered women are killed by their partner. It also shows that over 5 million girls are married before the age of 18. They are beaten and raped, often many die. They have no voice for themselves and often left in the dark. Not every country allows this, but many that do are: Syria, Europe, India, Iraq, and many more. In these countries, these women are not allowed to have jobs, education, and must obey to every word from their partner. Who would want this for their daughter, sister, mother, or anyone else.

A Helping Hand has a three part process. Our first process is our Hot line. The hot line provides these women and young girls to call to seek help. At a moment of the call, we come up with a safety plan to get the woman from her abuser. If the woman has kids, we also make a safety plan to bring them with her, we wouldn't want the abuser to turn on them. Which this leads us to our second process, shelter. After safely getting the woman in our custody, we provide her with shelter. Which she would be granted food, water, and a place to sleep. Her time there will be spent with helping her get a job, and consoling (therapy), our third process. She would be shown how to have a voice for

herself, and provide for herself. Once she's able to be on her own, she leaves our shelter with the hopes of starting a new life.

We're asking for donations to help make these shelters happen. To provide them with security, food, and water. We ask you give a hand to our Helping Hand foundation to bring peace to these women battling these living conditions. Thank you, and we appreciate your time with us. Please contact us at 1-800-helping hand, or [helpinghand@gmail.com](mailto:helpinghand@gmail.com).

Sincerely,  
Felicity Carter
